

TRASHKILLA

"SWISS ARMY KNIFE" OF LITTER REMOVAL

UNIVERSAL GARBAGE PICK UP TOOL

The First Tool To Sweep And Pick Up Litter

PROBLEM

NOT ALL TOOLS ARE CREATED EQUAL

1. One of the difficulties in litter removal is that litter differs by type and location making it necessary to have multiple kinds of tools for clean up.
2. Carrying several tools is cumbersome and not practical.
3. UNTILL NOW, there are no hand tools that can sweep and pick up litter.

SOLUTION

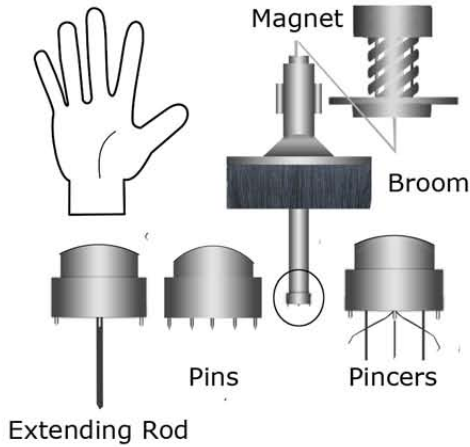

FIVE TOOLS IN ONE HAND

1. The first tool that can sweep and pick up litter.
2. The right tool in the right place when needed.
3. The perfect blend of utility, size, and portability.
4. Solves the problem of having to carry around an unwieldy amount of tools.
5. Eliminates the need for buying extra tools.

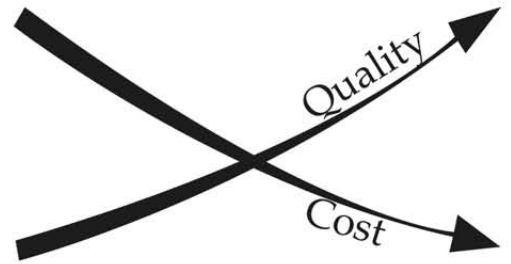

Why Trashkilla?

5 tools in 1 hand

- Can sweep and pick up litter.
- Gives five pick-up options. Four out of five tools can pick up cigarette butts - the largest source of litter.
- Can pick up and release multiple pieces at a time with extending rod.
- Most tools do not require squeezing for operation, keeping hands from becoming overworked.
- Broom may be replaced with special tools for specific tasks (i.e sand scoop for cleaning beaches and waterfronts).

Changes litter removal

Trashkilla: Applications and Benefits

Common/Universal Applications

This is the first universal hand tool that can sweep and pickup litter. Eliminates the need for buying extra tools.

Gives users more choice for litter pick-up, increasing efficiency, quality, and cleanliness.

Businesses

- Convenience stores
- Fast food restaurants
- Traditional Restaurants
- Bars/lounges
- Entertainment
- Supermarkets
- Pharmacies
- Dry cleaners

The annual cost of litter removal from individual business sites is \$2,500: Trashkilla reduces these cost by up to 25%.

Cigarette butts are the biggest source of litter for businesses. Four out of five Trashkilla tools pick up butts, making it the best garbage pickup tool for removing cigarette litter.

Government

- U.S. roadways
- Parks and recreation
- Parking lots
- Stadiums
- Zoos
- General public buildings
- Education services
- Libraries
- Airports

Litter pickup costs an average of \$.30 per piece, but the Trashkilla can reduce costs by 10 to 25%, saving taxpayers money.

The tool will enhance the property value, improve tourism attractions, and benefit the environment.

Households

- Gardens
- Backyards
- Basements
- Garages
- Sidewalks

The Trashkilla can be used inside as a broom or outside as a pick-up tool, all without needing protective gloves.

It's also a back-saver, as you won't have bend over for every last piece of trash while you enhance the attractiveness and property value of your home and neighborhood.

Commercial cleaning and landscaping business

- Parking garages
- Parking lots
- Sporting events
- Trade shows
- Conventions exhibitions
- Concerts & Festivals
- Fairground events
- Fairs
- Carnivals

This tool will reduce cleanup times on heavily-littered areas by up to 50%, increasing profit and competitiveness.

There are also special broom replacements for cleaning waterfronts and beaches, as well as belt attachments for hands-free use while operating landscaping and other power cleaning equipment.
